SHOWCASE & ATHLETE ASSESSMENTS

INMOTION JOURNEY

WHAT MAKES US DIFFERENT?

On-going Development

Most U.S. sports scholarship companies sign a player and then wait until they turn 18. At InMotion, we are unique because we believe in prioritising development of the person. They immediately receive coaching, training and tutoring along with additional game programs and other services. This support continues until they are fully prepared to embark on their university or college career.

Academy Matches

At InMotion Scholarships, we believe in unlocking every player's full potential. Our players participate in Academy matches that run alongside current club games to sharpen their game time and match skills and experience.

By maintaining peak fitness and playing higher quality matches, our players develop physically and mentally for challenges that come their way. The moment the player joins us, we are dedicated to giving each player that extra edge, empowering them to rise above and achieve their potential.

Alongside regular training sessions both on and off the pitch, we emphasise soccer fundamentals, endurance, and athletic abilities in a safe and enjoyable setting.

Summer Training & Tutoring

When pursuing further education and sports scholarships within soccer, it's essential to make regular physical activity a lifestyle. That is why our advanced and unique summer training programs incorporate gym fitness, personal nutrition and both group and 121 SAT tutoring.

This holistic approach helps us keep young minds sharp and prepared, both in their studies and athleticism. By maintaining a balance, we help our players excel academically and athletically, preparing them for a successful future.
