THE MANUFACTURING TECHNOLOGIES
ASSOCIATION

The **Technology Design and Innovation (TDI) Challenge Scotland** offers school and college students a unique opportunity to showcase their project work to an industry that relies upon the creativity and innovation of its designers and engineers.

- Open to students aged 14-19
- Individuals and groups can enter
- Submit your existing D&T and Engineering project – **no extra work required!**
- Schools and Colleges can submit multiple entries
- Over £5,000 in prizes for students, schools, and colleges

Guidance criteria for students

- Solution to a problem/problem solving
- Scalability
- Marketability/promotion
- Innovation/problem solving
- Sustainability
- Design
- Technology/Innovation
